

Combination Holder

Combination Holder (Collet Chuck Type)

Drilling and Boring with One Body. Machining Efficiency Increased. Number of Tools Reduced.

Combination Holder (Hydro Chuck Type)

For High Precision

■ Example of Application

Combine for Same Axis Hole

Combine for Different Axis Hole

SWM Cutter

Monolithic Steel Body Milling Cutter with Minimal Length

Special Design for #30 Machine

- 01 GL70 is made possible.
- 02 3kg up to diameter 180.
- 03 Rigidity increased by 20%.

※Compared with Aluminum Body

Low Cutting Force by Rake Angle
Low Cost by Resharpener

Multiple Downsized Bits
